

*“Just a little something to say thank you from the bottom of our hearts for the amazing care you gave to our loved one while he was here. Bobby’s became our home away from home for quite a while and treated us like family and we thought of you as part of our family. You went above and beyond to give our loved one everything he wanted and we appreciated that and so did he. He thought the world of all of you and we did too. So again, many, many thanks. We will hold you in our hearts forever and hope to see you all from time to time.”*

**Heart of  
Music Care**

Music is so important to our quality of life, even at the end of life.

We are very proud to have a **Music Therapy Intern, Julien Meyer**, doing his preceptorship at Bobby's Hospice. Our patients and families look forward to his visits every Tuesday and Thursday. He brings them special musical memories and warm moments together! This is just another way that Bobby’s Hospice provides quality care to people in their final weeks and months of life. If someone you know is living with a serious illness and needs in-patient care, call us at 632-5593. Hospice can help!

# Thank you!
